The artist of the day is Mark Jenkins [wikipedia]

> *Mark Jenkins is an American artist who creates sculptures and street installations using clear packing tape.*

> *I have a pretty strong background in music. I started playing the saxophone in grade school and continued on into college. Later, I quit the symphony and joined a funk band, and then finally found my niche in rap-electronica. While I was at Virginia Tech, the only visual arts course I took was a humanities course on post-1900 art. I graduated with a degree in geology. My interest in installation sculpture came from seeing a Juan Muñoz exhibit at the Hirshhorn Museum in Washington, D.C., in 2001.*
