Last week, **Mark Jenkins** (**interviewed**) premiered his debut solo show with **Lazarides Rathbone** entitled *Moment of Impact*. For his fans in London, the American artist has assembled a selection of provocative mixed media canvases and hyper-realist sculptures. Some pieces like his masked full-size figures are direct translations of his street interventions while others are produced for the gallery setting like the leg which seems to be bursting through a canvas or arms committing seppuku.
